

The latest update from New Life Fellowship Cambodia and New Life Foundation

NEW GENERATION YOUTH

@Main and North Campuses

Cambodia celebrates Khmer New Year each April and New Generation Youth (NGY) hosted a joyful celebration to call in the new year. It was a great time and many memories were made.

Nearly **100 young people** joined us at the main campus to play Khmer traditional games such as Tug of War, Chol Chhoung, and Chab Kon Kleng. The celebration ended with the youth dancing joyfully in Khmer traditional style.

At our north campus, 170 young people joined NGY to celebrate Khmer New Year. Our youth praised the Lord thru song and dance, and heard testimonies and encouragement from our guest speaker. We also played Khmer traditional water and shooting games. It was a great time!

SKILL TRAINING CENTER CELEBRATES KHMER NEW YEAR

Our Skill Training Center (STC) also celebrated Khmer New Year with traditional games such as leaf grabbing, musical chairs, tug-of-war, Bos Aungkuhn and other fun activities. Great relationships between teachers and students were created and a message of hope was shared. Celebrating with a Kingdom Culture mindset was a new experience for the 236 students who joined us.

Twenty-one students raised their hands and decided to follow Jesus. Praise the Lord!

Testimony

My name is Heng Sreyrov. I am a freshman at Human Resource University and an English student at the Skills Training Center. I want to express my gratitude to STC for hosting a Khmer New Year celebration. The program was so well put together--It was a joy to attend, with the many traditional games, snacks, and Khmer dancing. I would also like to thank Mr. Pheareak for sharing his testimony and experience, which was so encouraging and helpful to the students. Thank you to all the teachers and leaders who helped and organized this event. I hope we will have an STC Khmer New Year celebration again next year. Thank you.

NLF MISSION TO KRANG THNONG

Fourteen volunteers visited Krang Thnong village and were excited to see what God is doing there. They prayed and encouraged the believers to seek to know God more. They also painted and cleaned the church building and joined for a time of Bible study and prayer with the local pastors and leaders. One of the highlights of the trip was that wives and children of some of our team members joined.

After painting, our team split into two groups to visit church members. The pictures above are of one family--Grandpa who is 80 and Grandma who is 70. Grandpa was sick and couldn't leave his bed, and Grandma was having joint pain in her arm and couldn't lift her hand high. After our team prayed for them, we asked Grandma about her pain, and she replied, "I could not lift my hand, but now I can lift it higher." Praise God!!

Cell & Connect Leadership Training

Cell and Connect team trained sixty-five participants. **Fifty-five people successfully passed the training program.**

The purpose of the training is to equip leaders to lead successful cell groups. Participants learned about the characteristics of a cell group leader, the purpose and facilitation of a cell group, how as a leader to have a healthy spiritual life, the phases a cell group goes through, and how to create a new cell group.

FRIENDLY FOOTBALL MATCH

Sixty-five men from New Life's main and north campuses met together for a friendly two-hour football match. It was a great opportunity for fellowship and fun. The men were able to build stronger bonds which will create a stronger community.

We are very blessed!

SCHOOL OF CHURCH PLANTERS

Twenty students joined our New Life Church Planting Ministry for training this month in Krong Steung Sen, and Kompong Thom provinces. Church planter training **equips** and **empowers** individuals who have a vision and calling to start new churches. We cover biblical foundations, leadership development, evangelism, discipleship strategies, and church health and growth principles.

The training prepares church planters to **launch healthy, reproducing, and missional churches that glorify God and transform lives.**

After the training program, we had an opportunity to take a small trip around Krong Steung Sen and pray with some of the local people.
